

# Nyrell Leonor

Experienced retail/logistics professional turned Front-End Developer. Skilled in creating intuitive apps using front-end technology. I also share projects & insights on front-end development via my own website and blogging on social media.

## TECHNICAL EXPERIENCE

### Front-End Development

- Developed multiple front-end mock websites using design files and assets.
- Adhere to specific design specifications to produce accurate client-side applications.
- Developed interactive and user friendly applications use React & TypeScript that also incorporated UI/UX and responsive design principles.

### Website Design & Development

- Designed, developed, & deployed my own website showcasing my projects and skills as a developer.
- Incorporated Google Analytics A4 to monitor and increase website traffic by 200% and steadily increase weekly page views by 15%.
- Promoted my website to various social media platforms to increase traffic and exposure among users, companies, and various developers.

### Back-End Development

- Developed a RESTful API using TypeScript, Express, and Node, implementing best practices for architecture and HTTP requests.
- Developed familiarity with HTTP requests to API calls efficiently and prevent potential errors.
- Implement API documentation to enhance clarity of API usage and application.
