SUMMARY

Front-end Developer skilled in creating user-friendly, responsive websites and applications using HTML, SCSS/SASS, and JavaScript/TypeScript, as well as frameworks such as React and NextJS. Personal experience in branding and have developed my own personal brand through various social media platforms, where I share my personal projects and insights on the latest trends and techniques in front-end development and design.

TECHNICAL SKILLS:

- Designed and developed multiple front-end applications using HTML, CSS, SCSS/SASS, and JavaScript/TypeScript, with experience in building responsive and dynamic user interfaces using React.js.
- Incorporated mobile-first responsive web design principles, and UI/UX best practices in my applications for creating intuitive and engaging user experiences.
- Developed multiple projects using Git for version control whilst focusing on maintaining high standards of code quality.
- Integrated front-end frameworks such as React and NextJS in my development process to enhance the scalability of applications and quality of user interfaces.

PROFESSIONAL EXPERIENCE

Logistics Specialist   09/2021 - 12/2022

Frontier Supply Chain Solutions Inc.

- Expanded the company's product database by contributing over 80+ new product codes.
- Cleared over 200+ commercial freight deliveries crossing state borders, with an average of approximately 10 deliveries a day.
- Communicated with commercial drivers and vendors to ensure accurate and timely delivery of goods ensuring clearance that took no longer than 2 days.
